

# Math Lab Group Work Rubric

Learning Goal: I will work collaboratively to present a persuasive argument to adopt my idea of making math instruction so that all students are successful and see themselves as mathematicians.

	<b>CRITERIA</b> STANDARDS FOR THIS PROJECT	<b>COMPLIMENTS</b> EVIDENCE OF LEARNING	<b>CONCERNS</b> AREAS THAT NEED IMPROVEMENT
<b>PARTICIPATION</b>	The final product has evidence of students showing up at "who" and "how" they are in the ideas and questions contributed by each group member.	I liked...	I wish...
<b>TIME MANAGEMENT</b>	The group managed their time effectively by finishing every part of the group task.	I liked...	I wish...
<b>VISUAL</b>	The group created a visual that is clear, relevant and informative to communicate their argument in a visually appealing way.	I liked...	I wish...
<b>PRESENTATION</b>	The group engaged the audience with clear and persuasive verbal and non-verbal communication skills.	I liked...	I wish...
<b>BETTER TOGETHER</b>	The group questioned the outcome or provided alternative viewpoints that were incorporated into the final product.	I liked...	I wish...

NOTES:
