

Math Labs

TEACHER GUIDE

Teacher notes and probing questions for teachers to be able to select and teach with 5 minutes of prep. Aligned to IDOE Essential Standards. Available in PDF.

SLIDE DECK

A tool that can be used to incorporate a visual component into your lesson. These slides can be used to teach a Math Lab without any additional preparation. Available in PDF and Microsoft PowerPoint (editable).

STUDENT SHEET

Guide students through the lesson and provides a space to organize their thoughts and show their work. Aligned to the slides for ease of use, teachers can print and go. Available in PDF and Microsoft Word.

WARM-UP & COOL DOWN

Questions aligned to ILEARN State Assessment to be used as practice in the beginning and end of the lesson.

EXIT TICKET

A set of problems modeled after the problems in the lesson for extra student practice.

FAMILY CONNECTION

Summary of the lesson with family discussion questions to send home after the lesson. Available in English and in Spanish.
